

GATEWAY AIRPORT OPERATIONS SAFETY BULLETIN

SAF 25-06-001

Issue Date: 6/17/2025

Effective Date: Immediately

Subject: Monsoon Awareness & Safety

Briefing:

Monsoon season in Arizona brings much needed relief from the heat, but brings with it a litany of hazards such as:

- Dust Storms
- Strong Winds
- Heavy Rain
- Lightning

Here's some helpful tips to stay safe, minimize hazards, and ensure continuity of operations:

- In periods of reduced visibility, slow down and use caution when operating vehicles or equipment.
- Secure equipment such as baggage carts, wheelchairs, etc. to prevent them from becoming a safety hazard to personnel or aircraft.
- Lower boarding ramps to prevent damage to the equipment or aircraft.
- Follow your organization's policies and procedures when lightning is present around, near, or on the airport.
