2.1 DEFINITIONS

Whenever the following terms are used in this Contract, the intent and meaning shall be interpreted as follows:

Allowance – A specific amount for a specific item of Work, if any, that PMGAA agrees has not been sufficiently designed, detailed, or selected (including design changes from 90% to 100% as authorized by and at the discretion of PMGAA) at the time the Contract Price is agreed to for CMAR to provide a definitive price. Allowances shall be treated in accordance with Article 9 of this Contract.

Baseline Cost Model – A breakdown and estimate of the scope of the Project developed by CMAR pursuant to Article 3.4.1 of this contract.

CMAR or Construction Manager at Risk – The person or firm selected by PMGAA to provide pre-construction and/or construction services as detailed in a Construction Manager at Risk Contract with PMGAA. In these General Conditions, the term “CMAR” includes CMAR under both Pre-Construction and Construction Services Contracts.

ARTICLE 3 – PRE-CONSTRUCTION SERVICES

3.1 GENERAL REQUIREMENTS

- 3.1.1 CMAR shall perform the Services under this Contract using only those firms, team members and individuals designated by CMAR consistent with the Statement of Qualifications dated February 14, 2019 or as otherwise approved by PMGAA. No other entities or individuals may be used without the prior written approval of the Project Manager.
- 3.1.2 CMAR will comply with all terms and conditions of the General Conditions.
- 3.1.3 In the event of a conflict between this Contract and the General Conditions or any exhibit hereto or appendix thereto, the terms of this Contract shall control.
- 3.1.4 CMAR shall prepare and present to PMGAA a Detailed Project Schedule that is acceptable to PMGAA and in accordance with Article 3.2 of this Contract.
- 3.1.5 CMAR shall conduct the evaluations, perform the design document reviews, make the recommendations and provide the other Services referenced and in accordance with Article 3.3 of this Contract.
- 3.1.6 CMAR shall prepare and submit the Baseline Cost Model, Detailed Cost Estimates and Schedule of Values in accordance with Article 3.4 of this Contract.
- 3.1.7 The submitted Baseline Cost Model, Detailed Cost Estimates and Schedule of Values shall not exceed PMGAA's Construction Budget, which is **TBD**. If CMAR submits a Baseline Cost Model, Detailed Cost Estimates, and Schedule of Values that exceeds the Construction Budget,

negotiations could lead to termination or suspension of the Contract.

- 3.1.8 CMAR shall perform the Services required by, and in accordance with the Contract Documents and as outlined in Exhibit A of the Contract to the satisfaction of the Project Manager, exercising the degree of care, skill, diligence and judgment a professional construction manager experienced in the performance of such services for construction and/or facilities of similar scope, function, size, quality, complexity and detail to the Project in urban areas throughout the United States, would exercise at such time, under similar conditions. CMAR shall, at all times, perform the required services consistent with sound and generally accepted engineering principles and construction management and construction contracting practices
- 3.1.9 As a participating member of the Project Team, CMAR shall provide to PMGAA and Design Professional a written evaluation of PMGAA's Project Program and budget, each in terms of the other, with recommendations as to the appropriateness of each. CMAR shall prepare a Baseline Cost Model that validates PMGAA's budget. The Baseline Cost Model shall include all assumptions and basis of estimates in enough detail so that the Project Team can compare future detail estimates to the Baseline Cost model for variances. PMGAA and Design Professional will provide all the reasonably required data that is available in order to reach agreement between the team members that the Baseline Cost Model is an accurate projection of the costs of the Project.
- 3.1.10 CMAR shall attend Project Team meetings, which may include, but are not limited to, bi-weekly Project management meetings, Project workshops, special Project meetings, construction document rolling reviews, public meetings and partnering sessions. CMAR attendance at design or other meetings in which CMAR is provided the opportunity but does not actively participate and/or is not properly prepared is not acceptable. Repeated instances of non-participation and/or lack of preparedness shall be grounds for termination of CMAR Contract for default.
- 3.1.11 CMAR when requested by PMGAA, shall attend, make presentations and participate as may be appropriate in public agency and or community meetings, relevant to the Project. CMAR shall provide drawings, schedule diagrams, budget charges and other materials describing the Project when their use is required or appropriate in any such public agency meetings.
- 3.1.12 PMGAA ownership of Work Product. All Work Product prepared or otherwise created in connection with the performance of this Contract, including the Work, are to be and remain the property of PMGAA. For purposes of this provision, "Work Product" shall include all designs, drawings, plans, specifications, ideas, renderings and other information or material, in whatever form created (e.g., electronic or printed) and in all media now know or hereinafter created. All Work Product shall be considered Work Made for Hire as defined in the United States Copyright Act 17 U.S.C. §101 (Copyright Act). If for any reason any such Work is found not to be a work for hire, CMAR hereby transfers and assigns ownership of the copyright in such Work to PMGAA. The rights in this Section are exclusive to PMGAA in perpetuity.
- 3.1.13 CMAR represents to PMGAA in completing Pre-Construction Services and providing the reports and analysis required thereunder, that Work can be properly and timely constructed within the GMP Proposal, if accepted. CMAR does not assume any design responsibilities unless specifically called for in the scope of work, but CMAR shall be responsible for their errors, omissions or inconsistencies included in the Work.
- 3.1.14 CMAR and PMGAA agree and understand that PMGAA is at all times subordinate to its federal obligations, pursuant to Federal Aviation Administration ("FAA") Policies (2009) (including, but not limited to § 1.1, § 1.5, § 12.3, §10, § 14.1, *et. seq.*)

3.2 DETAILED PROJECT SCHEDULE

- 3.2.1 The fundamental purpose of the Detailed Project Schedule is to identify, coordinate and record the tasks and activities to be performed by all of the Project Team members and then for the Project Team to utilize that Deliverable as a basis for managing and monitoring all member's compliance with the schedule requirements of the Project. Each Project Team member is responsible for its compliance with the Detailed Project Schedule requirements. CMAR shall, however, develop and maintain the Detailed Project Schedule on behalf of and to be used by the Project Team based on input from the other Project Team members. The Baseline Project Schedule shall be developed as part of the Baseline Cost Model. The Detailed Project Schedule shall use the Critical Path method ("CPM") technique, unless required otherwise, in writing by PMGAA. CMAR shall use scheduling software acceptable to PMGAA to develop the Detailed Project Schedule. The Detailed Project Schedule shall be presented in graphical and tabular reports as agreed upon by the Project Team. If Project phasing as described below is required, the Detailed Project Schedule shall indicate milestone dates for the phases once determined. As part of construction phase, PMGAA may require CMAR to prepare a "resource loaded" schedule for all work, including work performed by Subcontractors, detailing each of the project tasks and the required/anticipated number of personnel per day for each task. CMAR shall also indicate on the schedule its ability to meet said required/anticipated personnel requirements.
- 3.2.2 CMAR shall include and integrate in the Detailed Project Schedule the services and activities required of PMGAA, Design Professional and CMAR including all construction phase activities based on the input received from PMGAA and the Design Professional. The Detailed Project Schedule shall define activities as determined by PMGAA to the extent required to show: (a) the coordination between preliminary design and various pre-construction documents, (b) any separate long-lead procurements, (c) any permitting issues, (d) any land, right-of-way, or easement acquisition, (e) bid packaging strategy and awards to Subcontractors and Suppliers, (f) major stages of construction, (g) start-up and commissioning, and (h) occupancy of the completed Work by PMGAA. The Detailed Project Schedule shall include by example and not limitation, proposed activity sequences and durations for design, procurement, construction and testing activities, milestone dates for actions and decisions by the Project Team, preparation and processing of shop drawings and samples, delivery of materials or equipment requiring long-lead time procurement (if any), milestone dates for various construction phases, Total Float for all activities to the extent authorized by PMGAA, relationships between the activities, PMGAA's occupancy requirements showing portions of the Project having occupancy priority, and proposed dates for Final Completion.
- 3.2.3 A Baseline Project Schedule shall be initiated with the project Baseline Cost Model and agreed to by the project team at the same time. CMAR shall update and maintain a detailed Project Schedule throughout pre-construction such that it shall not require major changes at the start of the construction phase to incorporate CMAR's plan for the performance of the construction phase Work. CMAR shall provide updates and/or revisions to the Detailed Project Schedule for use by the Project Team, whenever required, but no less often than at the Project Team meetings. CMAR shall include with such submittals a narrative describing its analysis of the progress achieved to-date vs. the Baseline Project Schedule, including any concerns regarding delays or potential delays, and any recommendations regarding mitigating actions.
- 3.2.4 If phased construction is deemed appropriate at the time of developing the Baseline Cost Model or during the development of the Detailed Project Schedule, and PMGAA and Design Professional approve, CMAR shall review the design and make recommendations regarding the phased issuance of Construction Documents to facilitate phased construction of the Work, with the objective of reducing the Project Schedule and/or Cost of the Work. CMAR

shall take into consideration such factors as natural and practical lines of work severability, sequencing effectiveness, access and availability constraints, total time for completion, construction market conditions, labor and materials availability, and any other factors pertinent to saving time and cost.

- 3.2.5 Long Lead Time Items. As part of developing the Detailed Project Schedule, CMAR shall identify all long lead time materials, fabrications, equipment, or other items which may impact the Project Schedule and may require early action on the part of the Project Team. Dates for selecting and ordering long lead time items will be included and highlighted in the Detailed Project Schedule.
- 3.2.6 Equipment Plan. CMAR shall develop an Equipment Plan that addresses all rental and owned equipment, regardless of whether such equipment will be provided by CMAR or subcontractor(s), that will be necessary to construct the Project and the cost of which will be included as a Cost of the Work in the GMP Proposal. The Equipment Plan will seek to minimize the cost of the equipment to PMGAA and maximize the efficient and coordinated use of the equipment for completion of the Project. The Equipment Plan will not only include the costs and allowable lease rates for the equipment but will also include an equipment schedule that will be incorporated into the Detailed Project Schedule and the Schedule of Values submitted with the GMP Proposal.

3.3 DESIGN DOCUMENT REVIEWS

- 3.3.1 CMAR shall evaluate periodically the availability of labor, materials/equipment, cost-sensitive aspects of the design; and other factors that may create an unacceptable variance to the Baseline Cost Model and/or Baseline Project Schedule.
- 3.3.2 CMAR shall recommend, in conjunction with the Project Team, those additional surface and subsurface investigations that, in its professional opinion, are required to provide the necessary information for CMAR to construct the Project. These additional investigations, if agreed to be necessary by the Project Manager and the Design Professional, shall be acquired by PMGAA and copies of the reports will be provided to CMAR.
- 3.3.3 CMAR shall meet with the Project Team as required to review designs during their development. CMAR shall familiarize itself with the evolving documents through pre-construction. CMAR shall proactively advise the Project Team and make recommendations on factors related to construction costs, and concerns pertaining to the feasibility and practicality of any proposed means and methods, selected materials, equipment and building systems, and, labor and material availability. CMAR shall furthermore advise the Project Team on proposed site improvements, excavation and foundation considerations, as well as, concerns that exist with respect to coordination of the Drawings and Specifications. CMAR shall use established value analysis principles in recommending cost-effective alternatives.
- 3.3.4 CMAR shall routinely conduct constructability and bid-ability reviews of the Drawings and Specifications as necessary to satisfy the needs of the Project Team. The reviews shall attempt to identify all discrepancies and inconsistencies in the Construction Documents especially those related to clarity, consistency, completeness and coordination of Work of Subcontractors and Suppliers.
- 3.3.5 CMAR shall evaluate whether: (a) the Drawings and Specifications are configured to enable efficient construction; (b) design elements are standardized; (c) construction efficiency is properly considered in the Drawings and Specifications; (d) module/preassembly design is prepared to facilitate fabrication, transport and installation; (e) sequences of Work required

by or inferable from the Drawings and Specifications are practicable; (f) the design has taken into consideration efficiency issues concerning access and entrance to the site, laydown and storage of materials, staging of site facilities, construction parking, and other similar pertinent issues; and (g) the design maintains continued operation of the existing PMGAA operations, security and systems and maintains traffic on adjacent roadways. CMAR shall also review the Drawings and Specifications to ensure that what is depicted therein can be constructed as designed and shall promptly inform the Project Team of any issues.

- 3.3.6 CMAR shall check cross-reference and complementary Drawings and sections within the Specifications and in general evaluate whether: (a) the Drawings and Specifications are Sufficiently clear and detailed to minimize ambiguity and to reduce scope interpretation discrepancies; (b) named materials and equipment are commercially available and are performing well, or otherwise, in similar installations; (c) Specifications include alternatives in the event a requirement cannot be met in the field; and (d) in its professional opinion, the Project is likely to be subject to Differing Site Conditions.
- 3.3.7 The results of the reviews shall be provided to Project Team in formal, written reports clearly identifying all reviewed documents and the discovered discrepancies and inconsistencies in the Drawings and Specifications with notations and recommendations made on the Drawings, Specifications and other documents. CMAR shall meet with Project Team to discuss any findings and review reports.
- 3.3.8 CMAR's reviews shall be from a CMAR's perspective, and though it shall serve to eliminate/reduce the number of RFI's and changes during the construction phase, responsibility for the Drawings and Specifications shall remain with the Design Professional and not CMAR.
- 3.3.9 It is CMAR's responsibility to assist the Design Professional in ascertaining that, in CMAR's professional opinion, the Construction Documents are in accordance with Applicable Laws, Regulations, or Legal Requirements, building codes, sound engineering principle's rules and regulations. If CMAR recognizes that portions of the Construction Documents are at variance with applicable laws, statutes, ordinances, building codes, sound engineering principle's rules and regulations, it shall promptly notify the Project Team in writing, describing the apparent variance of deficiency. However, the Design Professional is ultimately responsible for the compliance of the Drawings and Specifications with those laws, statutes, ordinances, building codes, rules and regulations.
- 3.3.10 The Project Team shall routinely identify and evaluate using value analysis principles and alternate systems, approaches, design changes that have the potential to reduce Project costs while still delivering a high quality and fully functional Project consistent with the Project Program. If the Project Team agrees, CMAR in cooperation with the Design Professional, will perform a cost/benefit analysis of the alternatives and submit such in writing to the Project Team. PMGAA, through the Project Manager, will direct which alternatives will be incorporated into the Project. The Design Professional will have full design responsibility for the review and incorporation of CMAR suggested alternatives into the Drawings and Specifications. CMAR shall analyze the costs and schedule impacts of the alternatives against the Baseline Cost Model and Schedule and provide a recommendation for the Project Team's consideration and PMGAA's approval prior to the establishment of the GMP.

3.4 BASELINE COSTS MODEL, DETAILED COST ESTIMATES, AND SCHEDULE OF VALUES

- 3.4.1 At the conclusion of the Schematic and Programming CMAR will review all available information regarding the design and scope of the Project using CMAR's experience in performing similar work, knowledge of similar projects and current and projected construction costs and, based upon that review, shall develop a Baseline Cost Model for review by the Project Team and approval by PMGAA. Once approved by PMGAA, the Baseline Cost Model shall be continually referenced as detailed estimates are created as the design progresses throughout Pre-Construction until the final GMP for the entire Project is established. A final GMP for the entire Project must be established and approved by PMGAA prior to the start of construction. It is the responsibility of CMAR to ensure PMGAA has sufficient information to evaluate and approve a final GMP prior to the time necessary to start construction so construction can be completed within the Contract Time. The Project Detailed Cost Estimate shall be the best representation from CMAR of what the complete functional Project's construction costs will be as indicated by the most current available documents and will be constantly checked against the Baseline Cost Model. CMAR shall communicate to the Project Team and assumptions made in preparing the Baseline Cost Model. The Baseline Cost Model shall support CMAR's Detailed Cost Estimates and may be broken down initially as dictated by the available information, as required by PMGAA.
- 3.4.2 After receipt of the Design Professional's most current documents from certain specified pre-construction milestones, CMAR shall provide a draft Detailed Cost Estimate including a detailed written report detailing any variances to the Baseline Cost Model and Baseline Project Schedule. The Design Professional and CMAR will reconcile any disagreements on the estimate to arrive at an agreed upon Detailed Cost Estimate for the construction costs based on the scope of the Project through that specified pre-construction milestone. Pre-Construction milestones applicable to this paragraph are: 40% Construction Drawings, 90% Construction Drawings and 100% Construction Drawing, if no consensus is reached, PMGAA will make the final determination. If the Project Team requires additional updates of the Detailed Cost Estimate beyond that specified in this paragraph, CMAR shall provide the requested information in a timely manner.
- 3.4.3 If at any point the Detailed Cost Estimate submitted to PMGAA exceeds the previously accepted Baseline Cost Model or previously approved Detailed Cost Estimate agreed to as set forth in Article 3.4.2 above, CMAR shall make appropriate recommendations to project Team on means/methods, materials, and or other design elements that it believes will reduce the estimated construction costs, such that it is equal to or less than the established Project Team's Baseline Cost Model.
- 3.4.4 Unless other levels of completion are agreed to in writing in the Construction Documents, at 40% Construction Drawings and 90% Construction Drawings and included with the associated report, CMAR shall also submit to the Project Team for review and approval a Schedule of Values that complies with the following requirements. The Schedule of Values shall be directly related to the breakdowns reflected in the Detailed Project Schedule and CMAR's Detailed Cost Estimate. In addition, the Schedule of Values shall: (a) detail unit prices and quantity take-offs, (b) detail all other contingencies and unit price Work shown and specified in the detailed design documents.
- 3.4.5 CMAR is to track, estimate, price and address the Project Team's overall project cost issues that arise outside of the Baseline Cost Model and the latest approved Detailed Cost Estimate such as: PMGAA generated changes, Project Team proposed changes, alternate system analysis, constructability items and value engineering analysis. The system used to implement this process will be referred to as the Design Evolution Log. This is to be addressed between the Baseline Cost Model, 40% Construction "Drawings, 90% Construction Documents, 100% Construction Documents, and the bid packages for all Phases, if applicable.

- 3.4.6 Upon request by PMGAA, CMAR shall submit to PMGAA a cash flow projection for the Project based on the current updated/revised Detailed Project Schedule and the anticipated level of payments for CMAR during the design and construction phases. In addition, if requested by PMGAA and based on information provided by PMGAA, CMAR shall prepare a cash flow projection for the entire Project based on historical records for similar types of projects to assist PMGAA in the financing process.

3.5 SUBCONTRACTOR AND MAJOR SUPPLIER SELECTIONS

- 3.5.1 Except as noted below, the selection of Subcontractors/Suppliers is the sole responsibility of CMAR. In any case, CMAR is solely responsible for the performance of the selected Subcontractors/Suppliers, and for compliance with the requirements of Title 34 of the Arizona Revised Statutes in the selection of a Subcontractors/Suppliers, to the extent applicable. CMAR shall comply with its Subcontractor Selection Plan submitted with its Statement of Qualifications.
- 3.5.2 PMGAA may approve the selection of a Subcontractor(s) or Suppliers(s) based only on their qualifications when CMAR can demonstrate it is in the best interest of the Project. All Work that is performed, after such a qualifications-based selection, for a price that is negotiated by CMAR will be billed in accordance with the GMP for actual costs and may be subject to audit by PMGAA.
- 3.5.2.1 Qualifications based selection of a Subcontractor(s)/Supplier(s) should only occur prior to the submittal of the GMP Proposal and such a way as to not delay the start date of the Construction phase as defined in the Baseline Project Schedule.
- 3.5.2.2 If a Subcontractor/Supplier selection plan was submitted and agreed to by PMGAA, CMAR Shall apply the plan in the evaluation of the qualifications of a Subcontractor(s) or Supplier(s) and provide PMGAA with its review and recommendations.
- 3.5.2.3 CMAR must receive written PMGAA approval for each selected Subcontractor(s) and Supplier(s).
- 3.5.2.4 CMAR shall negotiate costs for services/supplies from each Subcontractor/Supplier selected under this method.
- 3.5.3 All Work shall be competitively bid unless a Subcontractor or Supplier was selected pursuant to paragraph 3.5.2 above.
- 3.5.3.1 CMAR shall develop Subcontractor and Supplier interest, submit the names of a minimum of three qualified Subcontractors or Suppliers for each trade in the Project for approval by PMGAA and solicit bids for the various Work categories. If there are not three qualified Subcontractors/Suppliers available for a specific trade or there are extenuating circumstances warranting such, CMAR may request approval by PMGAA to submit less than three names. Without prior written notice to PMGAA, no change in the recommended Subcontractors/Supplies shall be allowed.
- 3.5.3.2 If PMGAA objects to any nominated Subcontractor/Supplier or to any self-performed Work for good reason, CMAR shall nominate a substitute Subcontractor/Supplier that is acceptable to PMGAA.

- 3.5.3.3 CMAR shall distribute Drawings and Specifications, and when appropriate, conduct a Pre-Bid Conference with prospective Subcontractors and Suppliers.
- 3.5.3.4 If CMAR desires to self-perform certain portions of the Work, it shall request to be one of the approved Subcontractor bidders for those specific bid packages. CMAR's bid will be evaluated in accordance with the process identified below. If events warrant and PMGAA concurs that it is necessary in order to ensure compliance with the Project Schedule and/or the most recent Detailed Cost Estimate, CMAR may be authorized to self-perform Work without bidding or rebidding the Work. When CMAR self-performs work without bidding, only the actual costs associated with performing the Work in accordance with the approved GMP will be billed and may be subject to audit by PMGAA.
- 3.5.3.5 CMAR shall receive, open, record and evaluate the bids; provided, however, that if CMAR or one of its affiliates is bidding to self-perform the Work that is the subject of the bid, then the bids shall be received, opened, recorded and evaluated by Project Manager instead of CMAR. Bids for each category of Work shall be opened and recorded at a pre-determined time. The apparent low bidders shall be interviewed to determine the responsiveness of their proposals. In evaluating the responsiveness of bid proposals CMAR, in addition to bid price, may consider the following factors: past performance on similar projects, qualifications and experience of personnel assigned, quality management plan, approach or understanding of the Work to be performed, and performance schedule to complete the Work. The final evaluation of Subcontractor/Supplier bids shall be done with Project Manager in attendance to observe and witness the process. CMAR shall resolve any Subcontractor/Supplier bid withdrawal, protest or disqualification in connection with the award at no increase in the Cost of Work.
- 3.5.4 CMAR shall be required to prepare two different reports on the subcontracting process.
- 3.5.4.1 Within fifteen days after each major Subcontractor/Supplier bid opening process; CMAR shall prepare a report for PMGAA's review and approval identifying the recommended Subcontractors/Supplier for each category of Work. The report shall detail: (a) the name of the recommended Subcontractor/Supplier and the amount of the Subcontractor/Supplier bid for each sub-agreement; (b) the sum of all recommended Subcontractor/Supplier bids received; (c) and trade work and its cost that CMAR intends to self-perform, if any.
- 3.5.4.2 Upon completion of the Subcontractor/Supplier bidding process, CMAR shall submit a summary report to PMGAA of the entire Subcontractor/Supplier selection process. The report shall indicate, by bid process, all Subcontractors/Suppliers contacted to determine interest, the Subcontractors/Suppliers solicited, the bids received and costs negotiated, and the recommended Subcontractors/Suppliers for each category of Work.
- 3.5.5 The approved Subcontractors/Suppliers shall provide a Schedule of Values with their bid proposals, which shall be used to create the overall Project Schedule of Values.
- 3.5.6 If after receipt of sub-bids or after award to Subcontractors and Suppliers, PMGAA objects to any nominated Subcontractor/Supplier or to any self-performed Work based upon any reasonable basis, CMAR shall nominate a substitute Subcontractor or Supplier, preferably if such option is still available, from those who submitted Subcontractor bids for the Work affected. Once such substitute Subcontractors and Suppliers are consented to by PMGAA,

CMAR's proposed GMP for the Work or portion thereof shall be correspondingly adjusted to reflect any higher or lower costs from any such substitution.

3.6 GMP PROPOSAL

- 3.6.1 CMAR shall submit a GMP Proposal for the entire Work, and for each phase (if required) of the Work, at the times set forth in the Pre-Construction Schedule included in attached Exhibit A. The GMP Proposal shall be presented in a format acceptable to PMGAA based upon the attached Exhibit B. PMGAA may change the schedule, format, and/or requirements for the GMP Proposal as it deems necessary during Pre-Construction and may request resubmittal of the GMP Proposal to reflect such changes.
- 3.6.2 For the purpose of the GMP Proposal, the parties agree that:
1. The CMAR Fee shall be equal to **TBD**% (percent) of the Direct Costs;
 2. General Conditions costs shall be a fixed amount or percentage agreed to as part of the Baseline Cost Model.
- 3.6.3 The GMP Proposal shall not exceed PMGAA's budget for the construction of the Project, which is **\$TBD** ("Construction Budget").
- 3.6.4 When a GMP Proposal is submitted for a phase of the Work, the GMP will have a Detailed Cost Estimate of the Costs of the Work in each phase of the Work that is being proposed plus the current estimate for all other Work. PMGAA will not approve the GMP for the phase of work without a total estimate for the complete Project. PMGAA may request a GMP Proposal for all or any portion of the Project and at any time during pre-construction. Any GMP Proposals submitted by CMAR shall be based on and consistent with Baseline Cost Model and the current update/revised Detailed Cost Estimate at the time of the request and include any clarifications or assumptions upon which the GMP Proposal(s) are based.
- 3.6.5 A GMP Proposal for the entire Project shall be the sum of the Cost of the Work, CMAR Fee, and General Conditions Cost. CMAR guarantees to complete the Project at or less than the final GMP Proposal amount plus approved Change Orders. CMAR shall be responsible for any costs for expenses that would cause the Cost of the Work actually incurred, including the Construction Fee and General Conditions Costs, to exceed the GMP.
- 3.6.6 CMAR shall prepare its GMP Proposal in accordance with PMGAA's request for GMP Proposal requirements based on the most current completed Drawings and Specifications at that time, which unless otherwise directed by PMGAA in writing, shall be at 100% Construction Drawings. CMAR shall mark the face of each document of each set upon which its GMP Proposal is based. These documents shall be identified as the GMP Plans and Specifications. CMAR shall send one set of those documents to the Project Manager, keep one set and return the third set to the Design Professional.
- 3.6.7 An updated/revised Detailed Project Schedule, Equipment Plan, and Schedule of Values shall be included in any GMP Proposal(s), all of which shall reflect the GMP Plans and Specifications the Detailed Project Schedule shall be shown in relationship to the Project Schedule and identify any variance to the Baseline Project Schedule. Any such Detailed Project Schedule updates/revisions shall continue to comply with the requirements of Article 3.1.2 through 3.2.5 of this contract.
