

Solicitation Number: 2021-022-IFB Addendum Number: 1

Air Traffic Control Communication Radios

Due Date and Time: May 12, 2021 at 1:59 PM (MST)

Revisions to the RFP documents are as follows:

Attachment G, General Specifications and Requirements.

2. Radio Requirements

i. Standards.

Page 33

Replace number 4 with the following in its entirety:

4. EUROCAE ED-137C : VoIP

The following questions were received in writing prior to the deadline:

Q1 - Page 34, Para 4.c: What output power do you want the transmitters to be? The radios only come in on power: either low power or high power. Normally, radios used for ATC is in Low Power (2-15 watts without filter).

A1 - Radios should be in the low power output range.
10 watts is what the Airport will be using.

Q2 - Page 35, Para j.: Do you want variable keying or ground keying? Please specify. Normally radios in ATC operations use Ground keying

A2 - Ground Keying.

Q3 - The solicitation does not call out any installation. I just want to make sure this solicitation is for radios only.

A3 - The solicitation is for radios only.

Q4 - The solicitation does not call out any equipment racks nor accessories to install the radios (rack rails, cabling, etc.) Again, just want to make sure this is for radios only.
A4 - The solicitation is for radios only.

ALL OTHER PROVISIONS OF THE SOLICITATION SHALL REMAIN IN THEIR ENTIRETY.

The above referenced Solicitation Addendum is hereby issued and executed May 4, 2021 at
Phoenix Mesa Gateway Airport Authority, Mesa, Arizona.
